## TO ENROLL MEN TO DO WORK ON FARM

Committee to be Named by T. M. Green to Seek Labor From Non-Essentials to Help

### MEETING HELD MONDAY NIGHT

Effort Will be Made to Supply Farmers With Men to Plant Delayed Fall Wheat Crop

If Rush county farmers are to be called upon to furnish fighters as well as food producers in the government war scheme, business men and non-essentials must in turn assist in the agricultural program in order to avert a reduction in food supplies.

This fact was made clear last night at the meeting of the business men and farmers of the county which was held in the court house in an effort to devise some plan whereby enough labor might be available to complete the fall work on the farms and especially to sow the wheat crop.

W. B. Brumfield, state labor leader, was present at the meeting and explained the situation, outlining the methods used in other places to secure farm labor. T. M. Green as chairman of the county council of defense, has been appointed head of the business men's department and will appoint a committee to enroll those men of the business district of the city who could be spared from their work to assist for two or three days each week on the farm.

Marion Detrick, county agent, announced today that a labor bureau had been opened at the official headquarters of the county agricultural department to supply farmers with men to assist in the wheat sowing.

It is necessary that all of the wheat in the county be sowed at once, according to Mr. Detrick, since another stretch of dry weather has begun and in order that the promised wheat crop may be properly started, every fraction in the county is being urged to lend as much mutual assistance as possible.

Farmers needing men to assist in the work have been asked to call the office of the county agent, 1761, and arrangements will be made at once to send the desired labor to the farms. A representative of Purdue university is spending a few days in this city assisting in the securing of farm labor.

### Thin, Irritable Child

Gained Flesh, Strength and Good Nature by Taking Vinol.

Middletown, Conn.—I used Vinol for my little girl 5 years old for a run-down, nervous condition. She was thin, irritable all the time and had no appetite. In a week I noticed an improvement and now she has a good appetite, has gained in flesh and strength and is much pleasanter to live with. —Mrs. C. B. Wilkinson.

There is no secret about Vinol. It owes its success in such cases to beef and cod liver peptones, iron and manganese peptonates and glycerophosphates, the oldest and most famous body-building tonics known. F. B. Johnson & Co., and leading druggists. —(Adv.)

## MAY MAIL REMAINDER IN COUNTY TOMORROW

Army Board to Have All of Questionnaires in Hands of Registrants by Thursday

### TWO ARE PASSED FOR ARMY

Approximately 320 questionnaires had been returned up to ten o'clock this morning to the county-army selection board by military registrants of September 12. Today's mailing of questionnaires totaled 102, which brings the number sent out up to 798. There are approximately 200 left to be mailed, and they may all be sent out tomorrow, providing the board's helpers are able to do the clerical work incident to mailing so large a number in one day.

Silvertown Miller of Rushville, who registered June 5, 1917, has been reclassified by the board, being moved up from class four to class one, making another selective subject to immediate call if he passes the physical examination.

Two registrants of the 1917 class who have been reclassified—Vern Lower of Walker township and James R. Whittaker of Mays—were the only ones unconditionally accepted for general military service, as the result of the physical examinations yesterday. Elbert H. Morris passed, but his questionnaire is before the district board. Bryce Sloop of this city was held for limited service, and referred to the medical advisory board. Clarence Talbert was accepted, but appealed to the medical advisory board.

Mr. and Mrs. Frank Gipson, of 6421 N. Sexton street of this city have been commissioned as officers of the Salvation Army and will have charge of the local work in this city. Their telephone number is 1912, the old number, 1938 being discontinued. Captain Tischer and wife will have charge of the work at New Albany.

Captain and Mrs. Thorpe of Gary, formerly in charge of the Salvation Army work here, were making friends here today while enroute to Indianapolis to attend the national conference.

Wheat sowing was in full swing in Rush county today after a delay of a month which threatens to cut down the wheat acreage in this county. ## What Bond Buyers Do

Since the beginning of the war, we have spent for Army use \$37,000,000 for flour; \$14,000,000 for sugar; \$43,000,000 for bacon; \$12,000,000 for beans; \$9,000,000 for canned tomatoes, and \$3,000,000 for rice. These are only some of the large items in our Army's bill of fare. We have spent \$126,000,000 for shoes; for clothing, winter and summer; nearly \$150,000,000 for blankets.

Our axes for the army have cost over \$6,000,000; our rolling kitchens \$47,000,000 and field ranges 1,500,000. The Army is using 2,500,000 shovels costing \$1 a piece. Our motor trucks to carry supplies and ammunition cost \$240,000,000, and for horse-drawn wagons and carts we have spent \$27,000,000. Our 279,000 horses and 132,000 mules have cost us nearly \$100,000,000; to feed them cost over \$60,000,000 and the harness for them nearly \$30,000,000.

These figures are large, but we have nearly 2,000,000 men in France and nearly as many in cantonments here, and the United States, through the Liberty Loan are making these soldiers as safe and as comfortable, as powerful and effective as possible.

Every subscriber to the Liberty Loan has helped, and every subscriber to the Fourth Liberty Loan will help to win the war.

## SOLDIERS KEPT IN CAMP IN AMERICA

But when food is shipped overseas from American docks, food saved by hit in American kitchens and dining rooms, then ships are sent straight across, and time is saved.

The frugality and carefulness of the United States can keep the ships of the allies plying steadily across the Atlantic. The savings of the civilian may transport a soldier—his soldier in very truth.

No doubt there are several who do not depend for a living on raising wheat. Yet, if we are fair-minded we will not withhold our O. K. from the declaration by Howard Jackson of the Grain Corporation that \$2.05 as a price for wheat is unjust to the farmer.

It does not allay his grief when he is blandly told that if he does not want to deal with local elevators he can ship the grain himself. As far as our observation goes, farmers do not as a rule own railroads, and they cannot order the assignment of freight cars on a given date to meet their respective emergencies. The railroads do the talking, and they have rather arbitrary custom though a natural one, of assigning cars on the basis of last year's business.

The cops in dear old Lannon went on strike to get recognition for their organization. And Foch in dear old France struck and got the same thing for his, and the blighter ain't satisfied yet.

Rip Van Winkle would have had to sleep a few more years these days if he'd wanted to sidestep registration.

Armies are always capturing the key to this place and that. They have had some fun with Budapest and its seven keys.

With all the prisoners we have to exchange, places like Switzerland will feel like a metropolitan clearing-house.

# TOWNSHIP SOUNDS LOAN CALL TO ARMS

Continued from Page One with the expectation of rolling in the remainder of the probable township quota within a short time.

The taking of pledges was under the direction of A. L. Gary of this city whose statistics disclosed the fact that the pledges were opened by one \$5,000 subscription rapidly followed by two \$4,000 bonds, one \$3,000 bonds, one \$2,000 bonds, three \$1,000 bond and eighteen \$100 bonds.

The fact that Posey township canvassers have been busy for some time, was emphasized by Samuel Addison, canvasser for the north-east part of the township, who reported pledges to the amount of \$19,700 which he had obtained during the past few days. Other workers have also been busy for several days and reported goodly amounts toward the township's Liberty Loan purse.

Members of the Franklin lodge No. 35, I. O. O. F. will meet at the hall at 1:30 Tuesday afternoon for the purpose of attending the funeral of Brother A. M. McGinnis.

# OFFICE OPEN 2 MORE WEEKS

According to the tabulations made this morning at the office of the registration clerks for the fall election, 4,907 voters in the county had complied with the voting preliminaries.

Two more weeks remain before the final closing orders are issued and among men interested in the outcome of the registration, there is much speculation concerning the total number of registrants which will be recorded when the office is closed. The fact that two years ago, a vote of 5,600 was polled, has been the basis of all speculation and since the movement of troops has taken numerous Rush county voters to such places that their registration is not probable, the registration clerks declared today that they did not believe more than 400 registrants would be enrolled during the remaining days, making the vote to be polled 5,300.

# PROHIBITS SMALL SALE OF PRINT BUTTER

Food Administration Prevents Waste of Printed Paper and Cartons. Already on Hand

# BECOMES EFFECTIVE JAN. 1

In order to prevent the waste of labor and parchment paper and cartons for units of butter smaller than the pound size, the rule prohibiting the manufacture or sale of butter in less than pound prints has been amended by the United States Food administration so as to go into effect on January 1, 1919, instead of on September 15, 1918, it was announced today by Dr. Harry E. Barnard, federal food administrator for Indiana. This is to prevent the waste of supplies of printed paper and cartons already on hand.

After the first of the year no quarter or half-pound prints or any prints less than a pound can be made or sold, provided, however, that a retailer may cut a unit of a pound or more and sell a portion of any size demanded by his customers.

The rule, it is expected, will result in the saving of considerable quantities of paper as much more is required to wrap a pound in quarter or half-pound prints than in one piece. There will also be a large saving in cartons and other labor involved in the packaging of butter.

When one is lacking in strength and endurance, when good health is wanting, when physical power is at low ebb, it is impossible to secure much of one's work.

# Society

The members of the Kappa Kappa Kappa sorority surprised Miss Esther Black last evening by going to her home with their baskets filled for a pitch-in dinner, the occasion being her birthday. After dinner the members held their usual meeting and at that time a report was given about the card party on which the sorority cleared fifteen dollars. This sum will be added to their war fund. J. ### RULES OF PROCEDURE FOR DISCHARGED MEN

Commanding Officer of Camp Must  
Notify Local Boards of Re-  
jection of Selectives

#### INVESTIGATION TO FOLLOW

Rules of procedure regarding selected men who have been discharged at mobilization camps, have been received by the county army selection board. The burden of notifying the local board of the rejection of a registrant, and the cause of the action, is placed on the commanding officer of the camp.

If the rejection was because of physical unfitness, the registrant shall be reclassified, put in class one and summoned for physical examination. If the defect found at the camp is confirmed by the local board, the rejection shall stand, but if it is not found, the registrant is to be referred to the medical advisory board for an exhaustive examination. The advisory board shall report to the local board which shall send all the records to the district board, whose duty it is to classify the registrant.

If the defect which caused his rejection is other than physical, the local board is expected to investigate and if it finds that in its opinion an error was made in rejecting him, all the record shall be sent to the adjutant general of the state who, if he approves the local board's action, shall refer the records to the commanding officer of the mobilization camp for consideration and recommendation to be returned to the local board through the adjutant general. If it is not returned within a reasonable time for returned with no recommendation or disapproval, the adjutant general of the state may send the records back to the local board.
